HEPA VACUUM LOAN PROGRAM

HEPA vacuums are capable of removing up to 99.97% of 'lead in dust' hazards in the home. Residents living in pre-1978 housing who have older windows are encouraged to borrow a HEPA vacuum at least annually and thoroughly clean their floors, window wells and window sills, followed by weekly wet cleaning of window sills and wet mopping of floors to keep lead dust levels low.

[HEPA Vacuum - How To Use](#)

HEPA Vacuums available through Oneida County Health Department

- [About the HEPA Loaner Vacuum Program](#)
- [Vacuum Loaner Form](#)
- [HEPA/Scrvac loaner disclaimer form](#)

HEPA Vacuums available in communities throughout Oneida County

Through a generous grant from the Community Foundation, HEPA vacuums have been placed in these convenient locations and are available for loan to residents. Contact the organization to find out how to borrow a HEPA vacuum. Residents use the HEPA vacuum at their own risk, most entities loan it for a one week period and the borrower is required to provide picture I.D. and return the vacuum clean, and in good condition.
